ENDODONTIC

ASSOCIATES

**Endodontic Associates** was established in 1960 and has been providing the highest degree of personalized care for over 50 years. The Doctors of Endodontic Associates are grateful to the members of the dental community for their continued confidence and support they have shown us over the past 50 years.

Endodontic Associates uses the latest anesthesia techniques, high-powered operating microscopes, cutting edge digital radiography technology, and 3-D Cone Beam CT imaging to treat the most complicated cases for a positive patient experience with predictable, effective results.

With 9 offices and 15 endodontists, Endodontic Associates is *an extension of the general dentist's practice*. Our *come right over* emergency appointments and convenient geographic locations make us always accessible.

### AN EXTENSION OF YOUR PRACTICE®

*Some things in life demand total expertise. Your dental health should be one of them.®*
